The Director of Central Intelligence
Washington, D.C 20505

Critical Intelligence Problems Committee

DCI/ICS 84-3911
20 September 1984

MEMORANDUM FOR: Members, Critical Intelligence Problems Committee
VIA: Eloise R. Page 19 SEP 1984
FROM: Executive Secretary
SUBJECT: Status Report on CIPC Projects and Activities--August 1984

25X1

25X1

1. CIPC Meeting--August: The monthly CIPC meeting was convened on 20 August, at 1530 hours. The primary agenda item was the CBW Study, which the Committee approved with certain changes.

25X1

2. One of the primary changes was the establishment of a CBW Intelligence Subcommittee under the auspices of the CIPC vice an independent CBW Intelligence Committee as proposed by the CBW Working Group. However, the CIPC concluded that they would review within 6-12 months the status of the new subcommittee and make whatever adjustments or organizational changes that are necessary to ensure the effectiveness of the CBW Intelligence Subcommittee. In addition, the Chairman appointed, with Committee concurrence, Dr. Glenn Priddy, Chairman of the CIPC CBW Intelligence Subcommittee. Dr. Priddy is LTG Odom's Special Assistant.

25X1

3. The first meeting of the new subcommittee has been scheduled on 21 September to develop their operational Terms of Reference. Additionally, the CIPC Principals have been asked to identify their respective members to the new CIPC CBW Intelligence Subcommittee.

25X1

4. Meanwhile, the CIPC staff has restructured the CBW Study and incorporated the Committee's comments and recommendations discussed at the 20 August CIPC meeting. The revised study will be forwarded to you by mid-September for your final review. Subsequently, the study will be forwarded to the DCI with the recommendation that the CBW Study be tabled at a forthcoming NFIC meeting.

[REDACTED]

12. International Narcotics Study: A final report is being prepared for the DDCI which focuses on two principal areas of concern to the Community in its support to the narcotics effort. These are:

- interagency coordination on narcotics matters, and
- narcotics intelligence collection. [REDACTED]

25X1

13. Our intention is to develop a short paper for the DDCI by 30 September which will probably emphasize two or three major points, among which are:

- that a practical and effective architecture now exists for interagency coordination, and
- that while there are some substantive gaps in the narcotics collection area, the NIO/Narcotics is aware of these issues and the Community is addressing most of them in the budget out-years.

25X1

14. Copies of the [REDACTED] version of the CIPC Narcotics Study are being distributed to the intelligence and law enforcement organizations. Several components plan to disseminate this version to field elements of their respective organizations, e.g., the Defense Attaches in key narcotics countries and the intelligence coordinators in the six respective NNBIS centers. [REDACTED]
